

EVENT DESCRIPTION

EL-EFF Region

Title: Smart solutions to saving electricity and costs in industries

Date & location: 16 April 2009, Trollhättan, Sweden

Organiser: KanEnergi

Number of Participants: 82

Short description:

This technical seminar arranged within the EL-Eff Regions project attracted many industries and other relevant interested parties such as consultants, service providers and facility management and operators.

The full day seminar included both information about energy management in practice, methods and good practices as well as technical information and examples in cost-efficient measures.

Background:

The interest of saving energy in general and electricity in specific has raised as the electricity prices is getting higher as well as the awareness about the climate change. Today the industries in West Sweden are suffering from the set back in the global economy and in the automotive industry in specific.

Last years the personnel and management in the industries has not been able to focus on anything else than production due to the large demand. Now, savings is in focus and energy efficiency is a key area.

Aim:

The aim of the technical seminar was to inform, exchange experiences and build capacity around new solutions and new technologies as well as tools and methods of energy management in industries.

84 participants listen to the presentations.
Here Maanus Johansson. Saab/GM

Many wanted to discuss electricity savings. Here during the lunch break.

Programme:

Time	Title	Speaker
09.00	Registration and coffee	
09.30	welcom end introduction - Innovatum and the energy issue - Trollhättan and the energy issue	<i>Moderator – Mats Johansson</i> <i>Henrik Aleryd, Innovatum</i> <i>Sara Borgström, Trollhättan Stad</i>
09.45	The energy kick - kick start for energy work in industries	<i>Mikael Söderström Rosén</i> KanEnergi
10.20	Energy efficiency in Saab and GM - implemented measures and new ideas	<i>Magnus Johansson</i> Saab Automobile AB
11.00	Ecodesign & energy efficient products - methods and examples	<i>Hans-Lennart Norrblom</i> Swerea-IVF
11.40	The EE toolbox for industries Tools and guides in the efficiency work	Mats Johansson KanEnergi
12.00	LUNCH	
13.00	Energy efficient industrial ventilation - heat exchanging, control etc.	<i>Mikael Börjesson</i> Swegon
13.30	Energy efficient lighting - smarter and more efficeint lighting	<i>Mikael Söderström Rosén</i> KanEnergi
14.00	Energy efficient pressurised air - production, recovery, control...	<i>Ulf Larsson</i> Atlas Copco
14.30	Control & manage the energy use - smart ways to control and supervise	<i>Erik Odhed</i> Beijer Electronics
15.00	Conclusion and final words	Mats Johansson, KanEnergi

Results, follow-up:

84 persons attended the seminar. The documentation was send out and can also be downloaded from:
